Tug Passes Obstruction.

WANTED (Rooms and Board)......Page 18

The little tug Baby of the fleet of towboats belonging to the National Sand Dredging Company fleet, which was penned in above the Long bridge by the driving of piles in the channel when the broken part of the bridge was rebuilt, has passed the obstruction, and is now

towing on the river below the bridge. Taking advantage of a low tide yesterday, the smokestack was taken from the tug, and she was worked under the bridge, with but little space to spare between the top of her house and the flooring of the bridge. The power launch Diana will take down her spars and searchlight and will be brought under the bridge today, in order to take her owner, Mr. Harry Norment, on a cruise owner, down the river.

knows that it is an easy, certain and pleasant way out of the coffee habit and all of the alls fallowing, and he prescribes it for his patients, as did a physician of Prospertown, N. J., one of his patients says: "During the summer just past I suffered terribly with a heavy feeling at the pit of my stomach and dizzy feelings in my head, and then a blindness would come over my eyes so I would have to sit down. I would get so nervous I could hardly control my feelings. "Finally I spoke to our family physician about

it, and he asked if I drank much coffee, and mother told him that I did. He told me to immediately stop drinking coffee and drink Postum Food Coffee in its place, as he and his family had used Postum and found it a powerful re-builder and delicious food drink. "I hesitated for a time, disliking the idea of

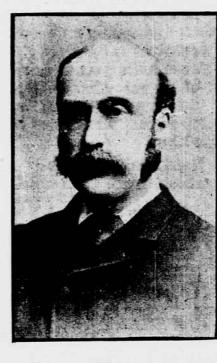

having to give up my coffee, but finally I got a package and found it to be all the Dr. said. Since drinking the Postum in place of coffee my dizziness, blindness and nervousness are all gone, my bowels are regular and I am again well and That is a short statement of what Postum has done for me." He was stricken with parafysis which affected his entire right side Sunday morning, October 18, and never rallied from the shock, although he recovered partial consciousness at times. Funeral services will be held at the house and at the Vermont Avenue Christian Church, of which Dr. Frederick D. Fower is the pastor. The services at the house will be brief, and at the church the ceremonies will be conducted by the Free Masons, with which order Dr. Muzzy had been affiliated

German Carp Plentiful. German carp are plentiful in the river,

and the fish are often caught by hook and line fishermen from the wharves here weighing twenty-five pounds. Saturday last, however, E. R. Bowie, a fisherman living on Potomac creek, near Quantico, made the record catch of carp. In one haul of a small net he landed ninety-seven large fish, weighing from twenty to thirty pounds each. It is said that carp first found their way into the Potomac through the river overflowing its banks and covering the ponds near the Washington monument, which at the time were filled with carp. Since then they have increased and multi-plied, and to their presence in the river dishermen ascribe the scarcity of many of

Infant Accidentally Killed.

A two-year-old son of Mr. and Mrs. Peter Self, living near Haynesville, in the Northern Neck of Virginia, was killed while playing with a loaded shotgun Saturday last. According to the story brought up the river, the little fellow was alone in a room, his mother having left him for a few minutes to attend to some household duties. She was gone but a few minutes, but in that interval the boy got hold of a gun standing in a corner, and, it is supposed, was trying to pull it to him by the muzzle, when it went off. The report brought the when it went off. The report brought the mother back to the room, and she found her child, with his head nearly blown from his body, dying. The walls of the room were tern with the shot and spattered with the blood of the little victim.

FOR STUDY OF METHODS. Five Priests to Visit the Universities of Europe.

Five priests from Chicago, Ill., will leave New York tomorrow on the steamer Roma and will spend some time studying the methods of the universities in Europe. They are sent by Archbishop Quingley, who, ever since his appointment to Chicago last year, has given further evidence of the progressive spirit for which he was noted in Buffalo. Following the course of his predecessor, Archbishop Feehan, he has turned his attention especially to higher education.

One of the priests named is Rev. Thomas Clarey Gaffney, who for severall years was connected with the Catholic University here. After his career in the schools of France and this country, Father Gaffney came to the Catholic University, and there added to his already large concerns of academic degrees the titles S. B. T. and S. T. L. Before returning to this country he will visit Palestine and several other eastern counto his already large collection of academic

Talked of John Knox.

Dr. Radcliffe, pastor of the New York Avenue Presbyterian Church, continued last evening his series of sermons on the "Men of Calvinism," introductory to the approaching centennial of the church. His subject was "John Knox," and he told the story of the life of the great churchman and of the birth of Presbyterianism.

DEATH OF DR. MUZZY LOCAL COURT RECORD DISCHARGE OF TERRY

REPRESENTATIVE HEMENWAY WILL INSIST ON A REHEARING.

It is Claimed That the Former Has Not Had a Fair Chance to Prove His Innocence.

The next important step in the Post Office Department inquiry that is looked for will be the investigation into the discharge of C. B. Terry from his position in the Post Office Department. Terry is a protege of Representative Hemenway, and that member of the House being slated for the chairmanship of the House committee on appropriations, it is positively known that he will make a vigorous effort to have his appointee reinstated or, at least, insist on a hearing of his case.

The charges Terry made against J. M. Masten will all be gone over, and if they can be sustained, as Terry has said they can, the scapegoat will be Masten. At all events the matter will be thoroughly aired and Terry given a chance to prove his assertions that have been the cause of his losing his place. The investigation will be at the instigation of the President himself, on the suggest on and plea of Representative Hemenway that Terry has not had a fair chance to prove his innocence of wrongdoing. In order to expedite the submission of the Bristow report to the President Saturday

Postmaster General Payne did not wait to prepare a letter of transmittal to accompany it, according to usual procedure. Mr. Payne will write his letter of transmittal later. It will be a document of probably ten or twelve typewritten pages, calling attention to a number of matters brought out by the investigation. Mr. Payne said that the question of new administrative plans would come up later. Reforms had been instituted from time to time as necessity arose, and there was no need of legislation for such changes as may be desired.

Mr. Bristow will begin the preparation of an abstract of his report at once. His abstract is likely to be approximately 10,000 words. Mr. Bristow is relieved at the close of the investigation. "All I have to say," he remarks, "is that I have told the truth, and the whole truth, just as I found it. I cannot say more." cannot say more.' As announced by The Star Saturday, the warrant for the second arrest of George W. Beavers on the first Washington indict-

ment, charging him with complicity in the rostal frauds, was ordered vacated by Judge Holt in New York, and he cannot therefore be brought to account by the Washington authorities until after the Brooklyn indictment has been settled.

The opinion of Judge Holt will be reviewed carefully by the district attorney here with a view to determining if any further action can be taken by that office to obtain for the government the right to go on with

the prosecution of Beavers in this jurisdic-
